

P1-T240000-E-LV

19" 1U fiber optic distribution panel, 24x SC duplex, slide version, empty

19" fiber optic patch panels are network infrastructure elements designed for mounting in rack cabinets. They provide an ordered and safe connection of optical fiber cables.

Technical specifications

19" 1U fiber optic distribution panel, 24x SC duplex, slide version, empty

Height	1U
Front version	24 x SC duplex
Number of adapters (max)	24
Color	anthracite (RAL 7016)
Dimensions	1U / 19" / 255 mm (depth)
Material	metal

High capacity and versatility

The panel design allows for the installation of up to 48 fibers, and also adapts to different types of cables, both with a central tube and a loose tube. The panel is compatible with SC duplex adapters.

Robust Construction and Protection:

The panel is made of metal and painted in anthracite color (RAL 7016), ensuring durability and an aesthetic appearance. Protections on the front of the panel prevent accidental sliding out, and fiber management handles allow for cable organization using standard zip ties.
